CANADIANS

Harrass Germans in Trenches on French Front by Raids Made Daily

EXPLODE MINED TUNNEL

Germans Sealed in Living Tombs When Caught By Explosion Set Off By Raiders Who Capture 47 Prisoners and Demolish Defenses—New Brand of Warfare.

(ASSOCIATED PRESS TELEGRAM)
With the British Armies in France via London, Feb. 15.—(3:10 a. m. from a staff correspondent of the Associated Press).

The past thirty hours have witnessed three of the British raids which are carried out daily and nightly with the object of making life unbearable to the Germans in the front line trenches. Two of the raids were conducted by the Canadians, who really invented the practice of trench raiding which has now spread throughout the British army. These raids, and to the steady progress by the British on both sides of the Acre are evidence that the cold weather of the war on this front has not stopped to constant worrying pressure which the British seek to exert upon the Germans.

Old soldiers say that there is nothing quite so valuable as these minor operations for keeping the troops in fighting trim while nothing is so depressing and injurious to morale as the constant defensive which the Germans have endured all winter opposite the British lines. In this respect the British are very unlike the French in their methods of winter warfare. General Haig's policy has been one of unceasing bombardment punctuated by daily raids and minor attacks, tactics which have brought in a constant stream of prisoners and inflicted a heavy toll of casualties on the Germans. The French on the other hand prefer lying quiet in their trenches for long periods and then attacking suddenly on a wide front in a sharp fierce combat. The British have not the same appreciation for the dramatic as the French but believe implicitly in the efficacy of the steady grinding down process which they are carrying out.

In their biggest raid the Canadians captured 47 prisoners of the eleventh Bavarians who only came into the lines yesterday. The Canadians remained in the German trenches for more than an hour and left them completely wrecked. Their most important work was probably the blowing in of four mine shafts by which they sealed in living tombs scores of Germans who were tunneling toward the British lines. The Germans tried to cut off the Canadians with a double barrage fire and then attacked but they only succeeded in inflicting a few casualties.

BROKERS CLAIM NO OFFICIALS DEALT IN STOCKS

(ASSOCIATED PRESS TELEGRAM)
New York, Feb. 15.—A mass of statements submitted by stockbrokers awaited examination by the congressional "leak" committee. Members said however, that most of this work would be done by a sub-committee, and that the other members might be able to return to Washington after the hearing today. If the sub-committee discovers evidence to warrant a re-opening of the public hearings the whole committee can be re-assembled and the public examination of witnesses resumed.

Brokers who testified yesterday declared that their customers included no government officials. One of the witnesses said that the records submitted by the brokers would not necessarily lead to the discovery of such officials, provided any had been trading in the stock market at the time President Wilson issued his peace note, because they might have dealt through a third party.

ROME ASKS IF LATEST SINKING IS "OVERT ACT"

(ASSOCIATED PRESS TELEGRAM)

Rome, Via Paris, Feb. 15.—All of the Rome papers ask if the sinking of the American Schooner Lyman M. Law constitutes an overt act mentioned by President Wilson in his statement to the senate. While the British consul at Cagliari telegraphed United States Consul Treadwell here that the Lyman M. Law was an ex-American ship the Giornale d'Italia says that the schooner was regularly registered in the American merchant marine and was flying the American flag when she was sunk.

CARRANZA NOTE SINCERE.

(ASSOCIATED PRESS TELEGRAM)
Mexico City, Feb. 15.—The Mexican papers reiterate today that Gen. Carranza's note to neutral nations was based on purely humanitarian grounds and was neither pro-German nor directed against the United States. The editorial says that it is unlikely that Mexico would risk the hostility of a neighbor in favor of the doubtful friendship of a nation that is far away.

MEXICANS

Kill Two Americans Near Corner Ranch Where Monday's Raid Occurred

COWBOYS ORGANIZE POSSE

Ready to Cross Border to Rescue American Cowboys Held As Hostages By Bandits—Soldiers May Already Have Gone Into Mexico in Pursuit of Raiders.

(ASSOCIATED PRESS TELEGRAM)
El Paso, Feb. 15.—Two Americans were reported killed Tuesday when a band of Mexicans believed to have been a part of Jose Yuez Salazar's command raided Lang's ranch on the American side of the border west of the Corner Ranch which was raided Monday, according to an American who returned here today. He said one of the men reported to have been killed in the raid at Lang's ranch was named Fulton. The name of the other man was not known.

American cowboys in Hachita were organizing a posse of fifty armed men to cross the border in an effort to rescue the American cowboys who were being held as hostages by the Mexican raiders, according to this American. John Parks, a well-known rancher of that district was said to have been selected as the leader of the posse.

MAY HAVE CROSSED BORDER.
(ASSOCIATED PRESS TELEGRAM)
San Antonio, Tex., Feb. 15.—Southern department headquarters had not been advised early today that American troops have entered Mexico in pursuit of bandits who raided the Corner ranch. Officials admitted, however, that under orders for maintenance of the border patrol, troops are at liberty to cross if they are on a "hot trail."

General Funston today received confirmatory advices on the raid from Col. H. G. Sickel, commanding at Columbus.

General Machado was formerly minister of the interior. He resigned his portfolio in the spring of 1912.

CUBAN REBELS HOLD SANTIAGO; SOLDIERS REBEL

(ASSOCIATED PRESS TELEGRAM)
Washington, Feb. 15.—State department reports from Cuba today indicate that the government is making some progress in putting down the liberal uprising.

The most important advantage won by the followers of Zayas was at Santiago where General Fernandez with 1,000 of the regular army and as many more armed civilians is in possession of the port. Minister Gonzales has forwarded to the one American naval vessel off Santiago the warning from Fernandez that the harbor is mined.

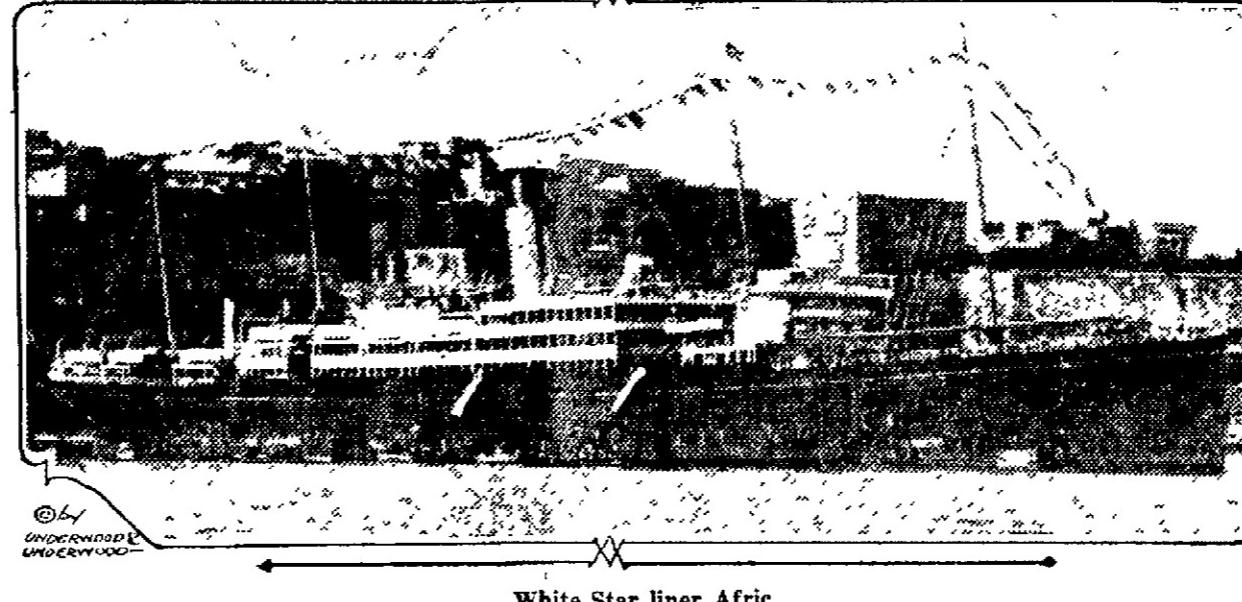

Definite results of the special election in the province of Santa Clara yesterday have not been received but Minister Gonzales informed the department that reports available indicated it had been in favor of President Menocal.

Apparently the rebellion has not been accompanied as yet by destruction of property.

RAILROADS ARE ASKED TO PREPARE FOR MILITARY MOVE

New York, Feb. 15.—Washington has called upon the railroad men of the country so it was learned today, to prepare a plan of military transportation and communication for use when necessity arises. Such a plan will be considered tomorrow at the meeting of the executive committee of the American Railway association in this city. The initial steps were taken here by Daniel Willard, president of the Baltimore and Ohio and chairman of the advisory committee created to aid the council of national defense. According to railroad men who attended a dinner given here Monday last by Mr. Willard, it has been suggested that the executive committee of the American Railway association provide for the creation of four committees of five men each representing the east, south, middlewest and west. These committees would work with the heads of the various military departments.

FRENCH TO FIX MAXIMUM PRICE FOR MILK PRODUCT

(ASSOCIATED PRESS TELEGRAM)

Paris, Feb. 15.—The food ministry has decided that from February 19 maximum prices are to be fixed throughout France for milk, butter and cheese. In the department of the Seine, including Paris, the price of milk must not exceed ten cents for a litre—about a pint and three quarters—if bought in a shop, or 11 cents delivered. The maximum prices for butter vary from \$1.12 to \$1.24 per kilo—roughly two pounds according to quality and source.

The only cheese prices fixed so far are camembert, from 13 cents to 26 cents the small box, according to quality, and Pont L'Eveque at slightly higher prices. All prices must be conspicuously displayed in the shops concerned.

There will be no celebration of mardi gras next Tuesday, but all theatres will be permitted to give both morning and evening performances. The two course meal regulation, which applies to all hotels and restaurants, goes into effect to-day.

RUSSIANS AND GERMANS ALLIES IN WOLF FIGHT

(ASSOCIATED PRESS TELEGRAM)

Petrograd, Jan. 15.—(Correspondence of the Associated Press.) A wolf hunt in which both Russian and German soldiers joined, is described in correspondence from the Polish front. Parties of Russian and German scouts met recently and were hotly engaged in a skirmish when a large pack of wolves dashed on the scene and attacked the wounded. Hostilities were at once suspended and Germans and Russians instinctively attacked the pack, killing about fifty wolves. After the hunt the soldiers sparred, each party returning unmolested to its own trenches.

Along some sections of this front hungry wolves have been particularly bold this winter, consulting a real danger to outposts of both armies and repeatedly the combatants have had to send out hunting parties against the common enemy.

Definite results of the special election in the province of Santa Clara yesterday have not been received but Minister Gonzales informed the department that reports available indicated it had been in favor of President Menocal.

Apparently the rebellion has not been accompanied as yet by destruction of property.

FRENCH VESSEL SAFE IN HARBOR AFTER VOYAGE

(ASSOCIATED PRESS TELEGRAM)

New York, Feb. 15.—Another entire ship, the French liner Chateaubriand, which passed safely through Germany's zone of unrestricted submarine warfare, arrived here today with 181 passengers. No U-boats were observed, the officers said, nor any friendly war vessels, although the wireless spoke of the presence of French patrol boats off the French coast.

PROHIBITION BILL WILL PASS HOUSE; REPORT FAVORS IT

(ASSOCIATED PRESS TELEGRAM)

Washington, Feb. 15.—The bill proposing a national prohibition constitutional amendment was reported to the house today with a majority committee reporting its favor and a minority report opposing it. Democratic Leader Kitchin said it would be taken up in the house within a week. He predicted it would pass the house by the necessary two-thirds, but probably would not be acted upon in the senate before adjournment of congress March 4.

Germans Request Brand Whitlock to Haul Down Flag

Report From American Ambassador Aroused Deep Feeling in Washington Though German Authorities Probably Were Within Their Rights—Belgian Government, to Which Whitlock Is Accredited, Is at Havre

HAD GERMAN CONSENT TO STAY IN BRUSSELS

State Department May Transfer Ambassador to Havre
Officials Believe That President Soon Will Go Before Congress to Ask Authority for More Drastic Action—Accumulating Freight in Eastern Ports Becomes Serious and Fear is Entertained That Industries of Nation May Be Affected.

(ASSOCIATED PRESS TELEGRAM)
Washington, Feb. 15.—State department advises today reported officially that Brand Whitlock, American minister to Belgium had been requested, but not ordered, by the German military authorities to lower the American flag from the legation in Brussels.

The department's advice made no mention of American relief workers being held prisoners and officials shared the view of Herbert C. Hoover, chairman of the American commission, that it was impossible. As to the flag incident, it seemed to be regarded by officials as more sentimental than actually serious, though it did arouse some feeling. State department officials took the view that the German military authorities are acting strictly within their rights. The American minister is accredited to the Belgian government, not to Belgium as a geographical unit and the seat of government is at Havre. Mr. Whitlock remained at Brussels by permission of the German government to take part in the relief work and the American legation building for all diplomatic purposes ceased to be a legation.

Whether Mr. Whitlock will continue on in Brussels as one of the four Americans permitted to continue there in the administration of Belgian relief or whether he will be transferred to his official position as minister to the Belgian government at Havre has not been decided.

While it still was indicated that the accumulation of violations of American rights might lead President Wilson to go before congress at any time it was stated today that he had made no definite plans for taking such a step immediately.

When he will go before congress it was said, will depend entirely upon circumstances. The opinion grew among officials, however, that such a step would not be long deferred.

Nothing has been heard by the state department early today from Germany in reply to its inquiry as to the exact status of the Americans taken into Germany on the prize ship Yarrowdale. Likewise no news came from Ambassador Elkus at Constantinople about Americans in Turkey.

The government began today to feel the insistent need for some sort of action soon to open a way for movement of freight now held up in Germany in reply to its inquiry as to whether the president will do this and when.

The sinking of the American Lyman M. Law, in the Mediterranean by an Austrian submarine, is regarded by officials here as illegal as much as the cargo was not contraband and the submarine displayed no flag, but since no lives were lost it is believed the incident will not in itself develop into a cause for drastic action by this government.

In a few days the state department may send a peremptory demand to Berlin for the release of the Americans brought in by the prize ship Yarrowdale and held prisoners.

At the present stage of development of the German-American situation, attention is centered on President Wilson by the growing belief that he will take no step, even to the furnishing of defensive armament to merchant ships without first consulting congress. Hourly interest is getting keen as to whether the president will do this and when.

DEATH COMES SUDDENLY TO WILLIAM SPEES

William F. Spees, 46 years old, a grocer in West Newark, dropped dead while cutting meat, at his store, 22 Union street at about 6 o'clock this morning. Several men going past the grocery to their work at the Wehrle foundry noticed Mr. Spees lying upon the floor and upon entering determined that he either was dead or seriously ill. A steak knife was lying upon the floor on one side and a slice of ham on the other.

Dr. G. W. Sapp was summoned and hastened to the store but Mr. Spees was dead. Coroner W. L. Jackson immediately was notified of the circumstances and gave permission for the body to be removed. It was taken to the Bradley morgue, prepared for burial and afterward taken to his home in 21st street in Cherry Vale addition.

Mr. Spees had been in his usual robust health and opened up the store this morning. Organic heart trouble is given as the cause of death.

The funeral will take place Sunday afternoon at 2 o'clock, under the auspices of St. Luke's Commandery at St. Paul's English Lutheran church, Rev. George Bohon Schmitt conducting the services. Interment in Cedar Hill cemetery.

William F. Spees was a brother of the late Louis Spees, who died June 2, 1916. He was born in Zanesville, the son of Christopher and Sophia Spees, August 23, 1871. He lived in Zanesville until 1889, receiving an education in the public schools, and in that year moved to Newark and entered the employ of the Baltimore and Ohio railroad in the car department.

Mr. Spees was married May 23, 1904, to Miss Ida N. Bishop, who survives.

The next year after his marriage Mr. Spees was transferred to Chicago as general car foreman, which position he held until 1909, when he took a position as general foreman for the Chicago, Lake Shore and Eastern in which capacity he served until 1909, when he moved back to Newark.

After returning to Newark Mr. Spees embarked in the grocery business at the corner of Maholm and Union streets, afterward building a store in Cambria street near the Jewett car shops.

Mr. Spees sold this store and residence and moved to the country, erecting a new home west of the city, purchasing the grocery at the present location, January 23, 1915.

Besides the widow there are one brother and four sisters surviving, Henry Spees of Purma, Montana; Mrs. Christina Wintermantel, and Mrs. Fannie Vermilion of Newark; Mrs. Bert Walker of Freeport, Ill., and Mrs. Minnie McClure of Indianapolis, Ind.

Mr. Spees was a 32nd degree Mason, and a member of Newark Lodge, No. 13, Knights of Pythias. He was a man of genial temperament, and kindly disposition which gained for the friendship of all who knew him, to whom his sudden death came as a great shock.

MAINE'S DEAD HONORED UPON 19TH ANNIVERSARY

[Associated Press Telegram] Washington, Feb. 15.—The Women's Music club met Wednesday afternoon at the home of Mrs. C. D. Coons to enjoy the study of Wagner's "Siegfried," the third of the Niebelungen Cycle, presented by Mrs. Charles B. White in so thorough and interesting a way as never to be forgotten, and which will enable those who have yet to hear this opera for the first time to listen intelligently and with heightened enjoyment. This was possibly Wagner's favorite work and it was twenty-four years before it was completed to the master's satisfaction. Mrs. White said that "we are here to give the opera of Siegfried. We are here only to study it." However the illustrations "given" by the vocalists and the pianists were interpreted in a manner which would entitle the program to be classed as an "artist recital."

Mrs. Edward Cooper Fennimore of Columbus, the guest of Mrs. J. S. Jones, gave two piano numbers and accompanied several of the vocalists. In addition to her brilliant technique and sympathetic feeling for the singers, her playing revealed the absolute command of one familiar not only with the orchestral score, but with the musical effects which may be approximated on the key board. The club voiced its appreciation of Mrs. Fennimore's valuable contribution to the program by a vote of thanks.

Mrs. Eshman gave "Current Events."

THE LEAK.

Now that it has developed that Thomas W. Lawson's charges of a leak in the President's peace note were principally based upon the foolish babblings of a half-grown girl the matter ought to be dropped as unworthy of Congressional action. A curious outcome of this investigation has been the revelation that those who were supposed to have inside knowledge of the President's purpose were nearly all losers in their Wall street dealings, while others made handsome profits. Under such circumstances who can trust a leak?

SHORTAGE OF COAL PROBED BY THE STATE

UTILITIES COMMISSION ORDERS
RAILROADS TO APPEAR TO
GIVE TESTIMONY.

Fuel Crisis and Traffic Congestion
Due to Inactivity on Part of
Public Carriers.

(ASSOCIATED PRESS TELEGRAM)

Cleveland, Feb. 15.—The state public utilities commission has ordered officials of every railroad in Ohio to appear before it tomorrow morning at Columbus when the commission will conduct an investigation into the coal shortage in Ohio. The fuel crisis and traffic congestion which have visited upon Cleveland and other cities the privations of a coal famine although hundreds of thousands of tons of coal were held in cars standing in railroad yards, will be made the subject of a searching inquiry by the commission.

Four of the commissions inspectors were in Cleveland yesterday. With inspectors in Toledo, Cincinnati and elsewhere, they have been quietly laying the lines for a sweeping state wide investigation.

The commission has asked that car accountants and traffic managers of all lines attend the Columbus investigation and produce at the hearing a full, detailed statement of all loaded cars destined for their own fuel use, for other roads or for the general coal trade. The figures are to be compiled as of Feb. 14.

It is expected that Attorney General Joseph McGhee and U. S. District Attorney Stuart R. Bolin of the Cincinnati district will attend the hearings and that the interstate commerce commission will have a representative on hand.

Curahoga county officials will take steps tomorrow to investigate the coal situation here. The grand jury will begin hearings and county prosecutor, Doertier is expected to lay before the jury all the facts obtainable on the shortage.

Newark School Gardens.

The project of gardening among the pupils of the Newark schools should receive the most earnest support of parents, upon whom depends to a great extent the success of the undertaking. The board of education has arranged for the garden plots and the employment of a man who is an expert along that line to teach the young people how to go about the work, but it can meet with a success only commensurate with the interest shown by the children. To create, develop and maintain this interest is largely the province of the parent. The father and mother must show interest in their child's endeavors, lend encouragement to his efforts, and join him in final triumph of accomplishment.

A parent, not once in a hundred times is able or disposed to pour with their children over an algebraic problem, or the translation of a passage of Virgil, but he or she can rejoice over the raising of succulent vegetable or fragrant flower. It is concrete. It satisfies hunger or delights the senses. And the child is the gainer.

Many criticisms have been launched against our public schools, but none probably so insistently in the past as its impracticability to meet the living needs of boys and girls. Educators acknowledged this lack, and the industrial, agricultural and commercial needs of the educational system.

Superintendent Wilson Hawkins has the hearty support of the Newark Board of Education in the gardening project he has announced and everything will be done to make a creditable showing the first year.

School gardening develops in the young habits of thrift and industry. These cannot be learned from books but must be acquired by experience.

It develops democracy in education, is valuable in deciding the choice of a vocation, tends to unite the efforts of home and school, furnishes recreation, healthful and often profitable employment, altogether making for the best growth of a child mentally, physically and morally.

Gardening is calculated to give those who practice it a true sense of the joy of living, by bringing them into contact with the forces and phenomena of nature.

Professor Karl Hopp of the High school faculty will have personal charge of Newark's pupil gardeners this year. He personally will supervise the planting and care of the plots, and each child will be taught how to plant, by actually planting, and not merely be told the process necessary. And the results are expected to be more than compensative to the labor, time and expense.

An expert sums up the situation as to results in the following:

"The ability to grow plants and to use them in the home is a great satisfaction to any man. If more people possessed such ability, and at the same time appreciated the value of land for productive purposes, city homes would be more attractive, back yards more sanitary and the dwellers more contented."

The Florida Freeze

People living in the temperate zone as far north as Newark, have thought the recent cold weather has been a hardship, and even grumble over the discomfort and inconvenience it occasions. This kind of people would be ashamed of themselves

CATARH LEADS TO CONSUMPTION

Catarh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It causes headache and dizziness, impairs the taste, smell and hearing, affects the voice, deranges the digestion, and breaks down the general health. It weakens the delicate lung tissues and leads to consumption.

Hood's Sarsaparilla goes to the seat of the trouble, purifies the blood, and is so successful that it is known as the best remedy for catarh.

The Valentine festival was celebrated with many charming social events, but none proved more delightful than the Valentine dinner dance given by the members of the Phi Beta Chi sorority to a number of their friends on Wednesday evening at the Hotel Warden.

The main dining room was used as a ball room, and attractive Valentine lanterns concealed the lights, and to the men were given charming boutonnieres of violets and sweet heart roses. A number of favors were a part of the dance program, and partners were secured by matching valentines and valentine favors were given. The dinner appointments were in red and white, the bud vases containing scarlet tulips and the bon bon boxes were heart shaped and contained heart-shaped confections. Place cards suggestive of the Valentine were used and at each place a concealed comique Valentine added to the merriment.

The guests were Misses Amy Kuster, Dorothy Glenn, Dorothy Kuster, Clotilde Howard, Marion Collins, Helen Voselmeier, Nellie Morse, Thelma Kline; Katherine Musser, Berenice Wintermute.

Keep Your Hair and Scalp Clean

If you want a good healthy growth of hair care should be used in keeping the scalp clean, free of dirt, dust and dandruff. Do not use cheap soaps or shampoos that contain too much alkali as they are liable to dry the scalp and make the hair too brittle. For steady use the best thing is kreamol, a liquid which you can secure at almost any drug store. It is very cheap as a four ounce bottle will be sufficient to last a family for several months.

To cleanse the hair and scalp thoroughly, simply moisten the hair with water and rub in the kreamol. One or two spoonfuls will make a rich, creamy lather and it is very easily rinsed. The hair dries quickly and evenly and leaves it fine, bright, fluffy and easy to care for.—Adv.

Kreamol is sold at Evans' Drug Store, (Warden Hotel Block.)

Personal

child of independent growth, willing and ready to give of himself that the world may be, through his sweetness and effort, a better, happier place.

If your child stands incorrectly look to the clothing first for the defect. Perhaps there is too much weight on the shoulders, or the hose supporters are too tight, or the weight of the garments are not evenly distributed. Perhaps the shoes are uncomfortable, so that the youngster unconsciously bears more weight on one foot to ease the other foot.

Sometimes a child is dull and listless when the clothing is too heavy. This is apt to happen in the spring, when warm spells appear between cold days. It is not wise to lighten flannels until the weather settles, but there should be a change in outer garments if possible. Nothing drags a child more than overheating. More children catch cold from cooling too suddenly from a draught when in a perspiration, than become ill from too light clothing.

The Skin Beauty.

A beautiful natural complexion is the desire of nearly every woman, and in the absence of it, all sorts of descriptive articles are resorted to that give pleasing results and in many instances great injury. There are a great many preparations that are beneficial for beautifying the complexion but one thing should be borne in mind—that the skin must be kept clean and the pores open so that they can discharge the impurities of the body.

If the skin were perfectly obstructed with a compound impermeable to moisture one could not live over six hours. This experiment was once tried on a child at Florence. The child died in a few hours.

How is the skin to be kept fine and beautiful? By perfect cleanliness, air, sunshine, and good health. The entire body should be washed daily, the face twice a day. This cleanses and permits the skin to act freely.

Sunshine, in spite of tanning and freckles, is good for the skin. So is fresh air. Both unite give bloom and color to it, and if the air and sunshine are taken early and regularly before the former has lost its morning fragrance, and while the latter has not yet gained its power to tan a beautiful bloom may be expected.

May we show them to you? Of all domestic rugs, those that most truly match the delicacy of coloring, the beauty of design, the long life and luxuriosness of the oriental are the famous

French Wilton Rugs "Fine as Silk"

These beautiful rugs are woven of the finest worsted, and are unquestionably the most hand-some Wilton rugs woven, their delicate tones, soft richness under foot, their wonderful permanence of coloring, makes them the rug ideal for homes of refinement. A most unusual variety of sizes and colorings to choose from. And the prices are low, quality considered. IF YOU LOVE BEAUTIFUL THINGS, COME AND SEE THEM.

Perfect reproductions of finest Oriental fabrics at prices infinitely lower are procurable in

Bundhar Wilton DURABLE AS IRON RUGS & CARPETS

When introduced twenty-five years ago, the manufacturers instantly saw in Bundhar a fabric that was splendidly adapted to reproduce the pleasing patterns and charming colors so characteristic of eastern craftsmanship.

Unlike their prototypes, Bundhar Wilton Rugs are made for floor coverings—not prayer rugs or tent hangings—they welcome the endless tread of shod feet—their constitution has all the "iron" necessary to stand the strain.

The wear resisting qualities of Bundhar Wool, Bundhar Dye and Bundhar Weave, evolved the title "Durable as Iron" You can depend on these rugs.

You, Too, Can Have Beautiful Drapery Effects

By using some of the handsome imported drapery materials that are being shown this season, and we especially call your attention to the beautiful patterns in French and English tapestry—so suitable for upholstery or portieres

And the imported Madras—shown in such charming colors—it makes very attractive curtains and overdraperies, and the many beautiful colorings make it easy to match the other furnishings of the room.

"The Girl Who Smiles."

Every now and then out the theater patrons are invited to the announcement concerning some one particular musical comedy which enjoys the proud distinction of having commanded more than ordinary attention. It will be a long New York engagement. For that reason "The Girl Who Smiles," with a record of 209 performances at the Longacre theater, New York, ought to arouse the greatest interest in its coming to the Alhambra tomorrow.

No musical comedy in recent years bears the stamp of so much originality as does "The Girl Who Smiles," and its musical numbers are perhaps better approved from a popular point of view than any musical comedy ever presented. In fact, a dozen out of the 209 songs numbers introduced are positively infections.

In the matter of scenery and costumes it would be difficult to imagine anything more lavish and startling than that with which this original production is made, and regarding the company as a whole, one has but to study the names of the cast to be convinced that the dramatic interest, as well as the musical comedy purpose of this entertainment, is fully sustained.

This company at Cleveland the first three days of this week broke all records for attendance and the papers of that city spoke very highly of company.

It is a custom when viewing an actress' wardrobe to have over and admire her dresses, house clothes, etc., over the latest fashion importations, but Marie Doro, the artistic Lasky star who will be seen at the Alhambra on Friday and Saturday in the Paramount picture "Lost and Won," has two articles of apparel which are al-

and players Manager Fenberg was also in receipt of a wire from the manager of the Colonial theater of Cleveland, who said it was one of the best attractions of the season and that Newark show goers were in for a treat.

"Lazzy Bill"

W. B. Patton, the peculiar comedian with his "excellent company," will appear here Saturday matinee and evening in his newest play "Lazzy Bill," and it is safe to predict that after the curtain falls on the last act, the audience will give him a handful of money, for the fact that there is at least one player and an excellent company that never fails to leave behind an aroma so sweet and fragrant that a greater demand is created for more of the same upon each succeeding visit.

The "Lazzy Bill" company, together with elaborate scenery and effects, make this attraction one of the season's most worthy offerings.

Advance sale of seats will open today at the Auditorium theater.

Sunday Program.
As the Indian in moving pictures, it is the Indian who tricks the white man. In William F. Clegg's new photoplay, "The Primitive Call," the situation has been reversed, this time the white man tricks the Indian, and he does so through the medium of a white girl, Betty Malcolm.

Lured by the wiles of the girl, Brian tells his father to sign the deed. Then Brian reveals to him that she has been playing a great trick on him, for the Indian takes her prisoner, and makes her work as a squaw in the encampment. The story is good and the work of artists is wonderful. This feature together with the Fox two reel comedy "Chased Into Love," also that clever singer William F. Clegg, will be the Sunday program at the Auditorium theater.

"The Frolics of 1917."
Manager Fenberg promises a rattling good show to Wheel patrons at his theater on next Monday in "The Frolics of 1917." This attraction, now playing Columbus to great success and enormous crowds. The company is a large one and in the company are seen such clever people as Arthur Connolly, Gladys Sears, the most versatile woman now on the American Wheel. Little Marie, Eddie Taylor, Frank Wiesen, Rayco, Jim Hamilton, the Kamukahai twins, and the most beautiful chorus now playing the circuit. The musical numbers are of the whistling kind and are sure to find favor with Auditorium patrons. Special scenery, elaborate costumes, etc. As usual on the Monday matinee will be the "Frolics." Monday night no doubt the theater will be crowded as usual. Seats go on sale tomorrow morning.

"Katinka."
With a big Broadway cast and a special orchestra, Arthur Hammerstein's sensational musical success, "Katinka," which has just closed its run in New York, will be presented at the Auditorium on next Wednesday evening.

The same elaborate stage settings which surpassed in gorgeousness and artistic blending anything displayed in any number of the great theatricals last winter, will be displayed again, and the rich voices of the female principals and chorus promise a revelation to the most ardent followers of prevailing styles in feminine costumes.

"Katinka" tells the story of a Russian girl who is forced into marriage with an elderly, stolid, and somewhat distasteful man. On the night of her wedding she is spirited away by her lover, Ivan, who has learned that Boris already has a wife, supposed to be "somewhere in Turkey." The two, with an American friend named Horner, set out to discover this Mrs. Boris, and the play deals with the tangible incidents of the search.

Mail orders are now being received.

"Twin Beds."

The announcement of the Auditorium for Friday, Feb. 24, is Sabiston Field and M. S. Morris' uproariously funny "Twin Beds," which opened with a record of one whole year in New York and is now in its second year in London. "Twin Beds" is considered to be the best and most diverting

comedy ever written. New ventures are difficult and new trials hard to follow, but in "Twin Beds" Mr. Field and Miss Mayo are given the typical comedy upon a new and original idea, with an air of possibility and probability. It is the laugh play of the century, coming in now, tastes, a tonic for old and young. Its story is built around the fact that people who live in fashionable apartment houses, whose only personal bond is that they pay rent to the same landlord, still have an unwelcome neighborhoodness cast upon them by way of elevator, dumbwaiter and staircase of lathes and plaster. "Twin Beds" is sponsored by A. S. Stern and company. Mail orders now being received.
